

**Tuesday 24th March 2015**

You may notice grassy areas along Princess Parkway and surrounding neighbourhoods turning yellow over the coming weeks - don't worry.

This is all part of the Competition Winning "Tale of 2 Cities" project between Manchester and Liverpool.

Preparation is needed to provide perfect conditions for millions of wild flower seeds soon to be sown to create exciting and colourful wild flower landscapes.

Some soil preparation will take place before seeds are sown in late March and April and then the clocks ticking..

**By June /July, the gateway to the City will be awash with bees, butterflies and colour!**

Join us this Sunday afternoon for the very first Tale of 2 Cities Seed sowing Event in Hulme - see attached pdf for details.
