

Birds love seeds, so Today I'm going to show you how to fill a bird feeder! It's really important that we help the birds by feeding them seeds or nuts throughout the year, and it's so easy to do!

Step 1.

Step 2: Fill a bird feeder. There are lots of different types, you can buy one or even make one

Step 3: go to a big sack and fill it with birdseed. You can get large feeders for sale, but today I'm using a

Use the cup to fill the bird feeder! Don't worry if you spill some, lots of birds will come along and

And finally, the top! You can see the little holes where the birds will come and perch to eat!

Dangerous as the bird can be a considerable pest to keep watching. See how many different types of birds visit
